introduction

During the 2003-2004 legislative session, 317 bills passed both houses of the legislature and were signed into law. Another 52 bills passed the legislature but were vetoed by the Governor. Overall, it was a very successful session for the business agenda. Highlights include significant business tax cuts, comprehensive regulatory reform, incentives for venture capital investment, and many other pro-business bills aimed at improving the business climate in Wisconsin.

The information recorded here covers 17 votes in the Senate and 17 votes in the Assembly on key business-related legislation. To make this legislative record valuable to business people, we have eliminated partisan posturing and have chosen the vote most crucial to a bill's fate. We have not weighted these issues because we recognize that particular issues are more important to some members than others.
